

# LOCAL FORWARDER

LOOKING FOR A SOLUTION FOR  
YOUR DROP SHIPMENTS? [CLICK HERE](#)

## Control Towers International has created a unique solutions designed for freight forwarders to manage their drop shipments

Drop shipments (known also as cross trade) are still challenging tasks for many freight forwarders. Elements like shipment visibility, pricing options, quick quote process, and shipment follow up and customer requirements are still lacking and hinder reliable service, on time delivery and profitability.

Control Towers International, a supply chain management provider, operates in the niche market of cross trade and drop shipments

### CTi comprehensive solution for drop shipments consists of:

#### Utilization of Global Networks

Signed Service Level Agreement (SLA) with the world largest logistics networks and carriers insure meeting customer requirements anywhere and anytime against competitive rates.

#### Around the clock operation

One multilingual team, one invoice, one logistics control tower.

#### Door to Door

Door to door services globally using all modes of transport.

#### CTiX™ - IT System

State of the art IT system allows identification of errors early in the shipment process in order for delays to be avoided. CTiX™ provide also enhanced customer interactivity and shipment visibility.

#### On-line pricing

On-line pricing system supporting quick quoting for customers.

#### competitive rates

Continuous benchmark activities on global routes insuring competitive rates and service quality to your customers.
